My Research Work

- I. Setting a goal
The ... chief/ general ... aim ...
... central / key ... goal
... main/ particular ... purpose ...
... major / primary ... task ... of this study is to investigate / establish / work out.
One of the main / principal objectives .
The ... subject (matter) ... of our paper (study) analysis (research).
The investigation deals with / is devoted to the questions / considers what factors / proceeds influence.
In this research I aim to determine...
I examine the nature / characteristics / functions...
- II. Structure.
The structure of the thesis is as follows.
The first section / chapter reveals / describes / outlines / sketches / analyzes...
Section 2 / chapter 2 portrays / dwells on / enlarges upon...
Section 3 / Chapter 3 / proposes / summarizes...
The final section ...
There is currently great interest in...
- III. Crucial information.
In my research I review / debate the problems / demonstrate advantages/ suggest...
In this thesis I attempt to clarify the relation...
Our research is based on ... the assumption / belief / idea / theory that...
Our analysis rests on ... the conception / that claim / idea / hypothesis / supposition...
In our investigation we proceed from the notion / point of view / viewpoint of / The general notion / central concept / important point ... here...
Our hypothesis / The idea...
This notion needs careful explanation / needs to be reconsidered...
This model can be extended...
We define...
We limit the investigation to
- IV. Material and methods
In our study ... we have adopted / applied an innovative research / modeling ...
... the develop / offer / work out / use a method of...
Our research is based on / rests on focuses on / involves observations...
This approach ... allows ...
This framework ... helps to investigate / offer a clear and practical way of/ serves for...
- V. Conclusion
In closing / in the conclusion...
To conclude...
The results of the study are evaluated and assessed...
Our results highlight / indicate...
Further investigation will stimulate ... experiments...
In future it will be possible to use this method / approach...
- VI. Printing and publication
Results of this investigation were published / printed / have been communicated to the conference. ..
